Jul 18, 2018 Hello, It is currently very difficult to play on Linux, a complete version is currently only available for Windows. Jul 18, 2018 This will be added shortly. Currently the game is not 100% platform agnostic. What this means is that it is currently very difficult to play on Linux, a complete version is currently only available for Windows. Jul 18, 2018 Unfortunately, the play store link in the description doesn't appear to work, so I can't get in touch with the developers. Sorry. Sep 6, 2018 So if you're into this, be prepared to invest some money to download the game. You can do this via this link: Now the game is out of beta and available to all people. Jul 6, 2018 Below is a list of people who have already paid. You must be logged into your
