di piring sambil mencari model
kawai Here's a new and exclusive
high definition image from Isekai
Luvcon and I must say that I'm a bit
disappointed with the resolution on
this one, but the quality is still way

above average, and for a first impression it's still much better than I expected. The best thing I can say about this one is that the titillation factor is, for me, higher than a few of the other ones I've seen lately and I'm hoping that this won't get rushed into production.
