## CSC Alarm Clock

No need for a separate music player or alarm clock app. You can set multiple alarms at a time. The sound is either a light buzz or a vibration. You can select the volume of the alarm tone by the brightness of your nightlight. You can create different alarm sounds for specific time intervals. Alarm sounds can be adjusted for different occasions like sleeping, waking up, waking up and leaving the bed. you can enable or disable repeating alarms. You can decide if alarms should be on all the times or just when you want them. You can decide when you will be woken up. You can choose to have an alarm set for every day of the week and on weekends. You can adjust the alarm volume for the week. you can choose a light, a buzz or a vibration for the light. You can choose a light, a buzz or a vibration for the vibration. You can create up to 50 different alarm sounds. You can choose to have a nightlight on, an alarm light on, or both. You can choose if the nightlight should be on all the times or just when you want it. You can select which type of nightlight you want. You can control the nightlight and the alarm light separately. CSC Alarm Clock has an applet that you can put on your desktop or under your bedside or your car's dashboard, for example, for a quick and easy alarm clock. You can set up the alarm clock to sound when you want it to. You can create several alarms for different time intervals. You can select the volume of the alarm tone by the brightness of your nightlight. You can select your preferred sound for every specific time interval. You can be alerted to the time you need to wake up by the nightlight or the alarm light. You can adjust the nightlight's brightness for every day of the week. You can have a sound other than an alarm tone set as your desired sound. You can choose if the nightlight should be on all the times or just when you want it. You can select which type of nightlight you want. You can control the nightlight and the alarm light separately. The best way to experience CSC Alarm Clock is through the applet and the sound settings in the applet are not user friendly. You can adjust your volume, set your preferred sound for every specific time interval, select if you

## What's New In CSC Alarm Clock?

The CSC Alarm Clock is a simple alarm clock applet. It displays the current time, and provides several switches to enable you to choose between an alarm, radio station, alarm music (MIDI), and a number of repeat times and frequencies. There are no options to change the device settings (like brightness or sound volume). **\*\*FEATURES OF THE ALARM APP:** Display the current time Choose among four presets for the radio alarm - AM, FM, Music (MIDI) Choose between daytime and night-time Option to turn off the radio alarm Choose the length of the alarm - 5, 15, 30, or 60 minutes. You can choose the number of repeated alarm alerts, such as 1, 2, 5, 10, or 15 times. You can choose to have your alarm go off at any time during the alarm period. (Can you ever wake up at the exact moment of the alarm?) There are 4 display modes for the time - you can choose to see the time 24-hour, 12-hour, day, or night. Choose between AM, FM, Music (MIDI) or night-time. Choose to have your alarm go off at any time during the alarm period. You can choose the length of the alarm - 5, 15, 30, or 60 minutes. You can choose the number of repeated alarm alerts, such as 1, 2, 5, 10, or 15 times. There are four display modes for the time - you can choose to see the time 24-hour, 12-hour, day, or night. The applet is entirely graphical and requires no additional configuration. **\*\*SAVE & LOAD:** The applet is free to use. You can save your settings to a text file and load them back when you need them. You can also save your settings for use on other computers you access using your login. To save and load your settings, go to "File | Save Settings", choose where you want to store the file, and then click "Save". On the desktop version of the applet, the file is saved to the "CSC Alarm Clock Settings" folder. On the Mac version of the applet, the file is saved to the "CSC Alarm Clock Settings" folder in the "~/ " folder. The phone versions of the applet allows you to store a separate "CSC Alarm Clock Settings" folder and save your settings there. For the phone version of the applet, the settings can be saved to either the "CSC Alarm Clock Settings" folder, or the "CSC Alarm Settings" folder in the "~/ " folder. To save and load settings, go to "File |

---
